

Fashion Design Runway Show A Big Hit!

Fashion Design/Interior Decorating teacher Debbie Wilczak could not be prouder of her Niagara Career and Technical Education Center students who hit the runway with their amazing creations.

On May 12th at the school, her students showed off their collections on their models for their show entitled "Fashion Capsule Revealed". Each designer was inspired by a decade of fashion. The students enjoyed showing off their creativity and talent with their designs and the construction of their garments. The students also practiced sustainability by upcycling designs as part of the runway show.
