

5. FIRE AND EXPLOSION HAZARD DATA

Product is non-combustible; no extinguishing media or special fire-fighting procedures are required. There are no unusual fire or explosion hazards. The surfactant combustion products include, but are not limited to sulfur oxides.

6. REACTIVITY DATA

Stability: **Stable** **Unstable**

Stable and inert under normal conditions. No hazardous polymerization can occur. No hazardous decomposition products or conditions.

Materials to Avoid: Will react with strong acids (to generate hydrogen chloride) and strong oxidizing agents (to generate chlorine gas). For citrates, avoid strong oxidizers.

7. PHYSICAL DATA

Appearance:	White pellets	pH:	-3.5 - 4.5
Odor:	None	% Non-Volatile:	100
Density (Water = 1):	2.165 g / cc	Vapor Pressure (mm Hg):	1 mm @ 865°C (1589°F)
Solubility in Water:	36 g / 100 cc water at 20°C (68°F)	Boiling Point (760 mm Hg):	1413°C (2575°F)

8. SPILL OR LEAK PROCEDURES

Response to Small Spills: Sweep up and containerize for reclamation or disposal. Vacuuming or wet sweeping may be used to avoid dust dispersal.

Response to Large Spills: Shovel and sweep up; containerize for reclamation or disposal.

Hazards to be Avoided: None.

Reportable Quantity: Check your state for requirements.

Waste Classification: Some states have set maximum limits on chlorides in waste effluent.

Disposal Methods: Whatever cannot be saved for reclamation may be delivered to an approved waste disposal facility or if local ordinances allow, can be dissolved in sufficient amounts of water to meet water quality standards, and flushed down a sewer drain. Ensure compliance with local, state and federal regulations.

9. SPECIAL PROTECTION INFORMATION

Respiratory Protection: For conditions of use where exposure to the dust is apparent, a NIOSH approved dust/mist respirator may be worn. For emergencies, a self-contained breathing apparatus may be necessary.

For Hands, Body: If deemed necessary, wear protective gloves and clean body-covering clothing.

For Eyes: If deemed necessary, use chemical safety glasses or goggles. Contact lenses should not be worn when working with this material. Eye wash fountain or water for eyewashing should be available.

Ventilation: In general, dilution ventilation is a satisfactory health hazard control for this substance. However, if conditions of use create discomfort to the worker, a local exhaust system should be considered.

10. SPECIAL PRECAUTIONS

Transport in dry equipment; store in dry location. Handling procedures should minimize generation of airborne dust. Dust respirator as appropriate where exposure exceeds the 10 mg/m³ ACGIH TLV for nuisance dust.

11. LABELING INFORMATION

DOT Shipping Name:	Salt (common), sodium chloride	Additional Product Label:	Not applicable
DOT Label:	Not applicable	Warning:	None
UN No.:	Not applicable		

12. REGULATORY INFORMATION

Toxic Substance Control Act (TSCA):
All ingredients are on the TSCA inventory or are not required to be listed on the TSCA inventory.

13. USER'S RESPONSIBILITY

The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment.

The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by use of this material. It is the responsibility of the user to comply with all applicable federal, state, and local laws and regulations. Nothing contained herein is to be construed as a recommendation for use in violation of any patents or of applicable laws or regulations.
