Students and Staff who Become Ill While at School

Students and staff exhibiting the following signs with no other explanation will be sent, with their face covering on their mouth and nose, to the designated isolation room for an assessment by the school nurse:

- Flushed cheeks;
- Rapid or difficulty breathing (without recent physical activity);
- Fatigue, and/or irritability; and
- Frequent use of the bathroom

Please observe yourself and your students for signs and symptoms of COVID-19:

- Fever (100°F or greater) or chills;
- Cough;
- Shortness of breath or difficulty breathing;
- Fatigue;
- Muscle or body aches;
- Headache;
- New loss of taste or smell;
- Sore throat;
- Congestion or runny nose;
- Nausea or vomiting; and/or
- Diarrhea

For any student or staff member already in the building, they will be isolated immediately in a supervised designated isolation room and will be sent home immediately. Before returning to school or work, such individuals will need to present proof of a negative COVID-19 test, a written statement from the student’s health care provider clearing the student to return, and evidence that symptoms have been resolved or have improved.

If a school nurse is not available, the parent/guardian will be contacted to pick up their ill child or the staff member will be sent home.
