Overview

This guide provides parents/guardians with a step by step guide outlining the registration process and how to navigate the portal. The eSchoolData Parent Portal is a cutting-edge communications tool designed to increase your involvement in your student's education using the power of information. The eSchoolData Parent Portal allows for instant online access to current, relevant information that will enhance your involvement with your student’s academic career.

Account Registration

Please refer to your school district’s website for an existing Parent Portal Link. If your district has not created a link on the school’s website, you may use the link below.

Navigate to the school district’s secure site (don’t forget the S in https):

[https://parentportal.eschooldata.com/](https://parentportal.eschooldata.com/)

If your district has chosen to auto-generate parent portal accounts, generic User ID and temporary Password information will be distributed to parents/guardians. Parents/guardians will not be required to manually request accounts. If you have been given a User ID and temporary Password by the district, please skip to Logging In on page 5.

To request a parent/guardian portal account, click the link on the home page where it says “Online Registration.”

An online Parent Portal Registration Form will open.

Note:
The photo displayed on the Parent Portal Login page may change with the seasons.
Enter the required information (indicated by a red asterisk*) before the field name on the Account Information screen, then click Create Account Information.

Enter the required information on the Personal Information screen and click Create Personal Information.

Complete the required information in the Add Student section of the Student Information screen and click Add Student to the above list. After adding your students, click Finish Registration!

Tip: Keep a record of the Username and Password that you enter. You'll need them to log in once the account is approved.

Note: Only one student is required to verify your identity. All your students will be listed on the account when approved.
A confirmation message will display stating that the Parent Portal registration has been successful. Once the account request has been approved by the school district, an email will be sent from the school district to the email address listed on the registration form.

Logging In

Once the district has approved the account request, the parent/guardian will receive an email with a link to verify the email address and activate the account. Once the email’s link is clicked and the email address verified, click Login to login to the account using the Username and Password created at the time of registration.

If the district has auto-generated the portal account, the User ID and temporary Password provided by the district should be used to login for the first time.
Upon first login, the District’s **Terms of Use** should be read. Click **I Agree** at the bottom of the Agreement to proceed further.

If the account has been auto-generated by the district, users will be required to establish a new **Password** and enter a **Primary Email Address** after agreeing to the Terms of Use. Users will also have the option to **Use this E-Mail address as my User Name**. Click **Save** when finished.

**Note:**
Parents/Guardians will be prompted to Agree to the District’s **Terms of Use** each time the Terms are amended.
Getting Help

Users can get help both before and after logging in to the eSD® Parent Portal. From the Login screen, click the link where it says “F.A.Q.” to access the eSchoolData Parent Portal F.A.Q.

Once logged in to your Portal account, click the Help icon in the upper right corner of the Parent Portal screens to access the eSchoolData Parent Portal F.A.Q.

The F.A.Q. provides portal account holders with answers to commonly asked questions.
Navigating the Portal

A successful login displays the **Portal Homepage**, which allows the portal account holder to see a list of their **Student(s)**, view District/School **Announcement(s)** and access any District/School **Document(s)**. On the left side of the screen, Parents/Guardians can view a log of their **Recent Activities**. On the top right side of the screen, the icon bar displays icons for **Home**, **My Account**, **Help**, and **Logout**.

Click on a hyperlinked **Student ID Number** in the list of **My Students** to view that student’s information pages (defaults to the student’s **Profile Tab**). Click the **Inbox icon** or the **New Message icon** to access the **Messages Inbox** for the specified student.

If selected by your district, the **Students** list displays the current **Lunch Balance** for each child (see above screenshot), and also will include the last date that the **Lunch Balance** was updated. Parents can click into each child’s profile, and view the **Fees** tab to see more detailed information about that child’s **Lunch Balance**.

Click the **My Account icon** to update your portal account information (passwords, usernames, and primary email addresses), plus additional information as permitted by your district. For more information, see **Updating Account Info** on page 24.

---

**Note:**
For more information about the **Profile Tab** and the other information tabs, see pages 12 - 24.

For more information about the **Messages Inbox**, see **Messages** on page 9.

**Note:**
Since **Lunch Balances** are incorporated into the **Fees** module, districts may opt to display Lunch Balances as negative values (i.e., as credits), to maintain an accurate **Fees balance**.
Messages

The Messages function allows parents/guardians to communicate with staff members about a specific student. Parents/guardians can access the Messages inbox for a student in two ways: from the My Students list on the Portal homepage and from the icon toolbar when viewing the student’s information.

On the Portal homepage, the Messages icon will display as an Inbox icon, when there are no new messages about that student, or as a New Message icon. Click the Messages icon to access the Messages Inbox for the specified student.

On the student information pages, the Messages icon will display in the icon bar at top right, and may be followed by a red numeral to indicate the number of new messages (when applicable). Click the Messages icon to view a summary of recent messages for that student, with most recent messages listed first. The New Thread icon will display on each unread message. Click a message to open both the Messages Inbox and that message, or click All Messages to open the Messages Inbox.
Messages Inbox
The Messages Inbox displays all messages related to the selected student, from the most recent to the oldest. The New Thread icon will display on each unread message. Click the Favorite icon to bookmark a message thread. Type a search term in the Search Messages field and click the Search icon to filter the list of messages. Click a message to view the message thread details and/or reply to the message.

The existing Message window is divided into two areas: the message thread details at top and the reply field below, with the Editor toolbar at the top of the reply field. Type your response in the reply field and click Reply to send the response to all participants in the conversation.

If the message was generated from the Classic Teacher Interface (instead of the Teacher Connect Interface), clicking Reply will open an Information window, stating that “Reply is not available for this message. Please compose a new message to respond.” Click OK, then Cancel the reply.

Tip: Click your browser’s Back button to exit the Messages Inbox and return to the previous page (Portal homepage or student information page).

Note: Click a column header to Sort Ascending by that column, click the header again to Sort Descending.

Note: The Editor toolbar allows users to customize the text appearance, insert a link, and/or create lists.

Note: The Classic Teacher Interface has limited messaging capability that does not include message threads.

Tip: Copy the text of your reply before clicking Cancel, and then paste it into the new message window.
New Message
From the Messages Inbox, click Compose to create a new message.

In the Compose window, type your student’s name in the To field to display a list of all of their teachers, then click a name to select the recipient. Repeat the process to select additional recipients to create a group message.

Enter a Subject and the message body. The Editor Toolbar allows users to customize the text, insert a link, or create lists. When finished, click Send.
Student Information Pages

When a student’s ID number is clicked, the student’s Profile tab displays by default. Click another tab to bring up the corresponding information. All tabs may not be available, and their order may differ from these screenshots, depending upon your school district’s use of the eSchoolData system. If there are more tabs than the resolution of your screen will show, the ends of the header row will display left and right scroll arrows, which will appear as inactive (greyed out) left or right arrows when there are no more hidden tabs.

Click the More Events icon to open the Events box.
