

The Niagara County Department of Health in partnership with Niagara County school districts offer free COVID-19 testing for students, faculty and staff for all schools in Niagara County. The objective of this testing is to minimize the disruption to in-person learning from COVID-19. Unfortunately, this testing service is not available to household contacts or community members who do not attend/work at a school.

All individuals will receive an antigen test and results are available in 15 minutes. Based on antigen results and close contact to a positive case/severity of symptoms, clinical staff may recommend a PCR test. PCR results are typically available within 48 hours. School districts are notified of testing results daily and you will be contacted directly for a positive test only. If you are symptomatic please notify the testing staff before you enter the site.

Testing is available for the following:

- Mandatory weekly testing of unvaccinated faculty and staff
- Return to school testing for SYMPTOMATIC individuals (regardless of vaccination status) with NO KNOWN exposure to a COVID-19 positive contact
- All close contacts should have a diagnostic test 5 days after their last contact to the COVID-19 positive individual
- Screening testing for individuals (regardless of vaccination status) with NO SYMPTOMS and NO KNOWN exposure who are concerned about their COVID-19 status

Testing is not appropriate for travel, attendance at concerts, sporting events or other recreational activities.

Appointments are required. Please use the links below to register at a testing clinic of your choice. Please bring school ID or other proof of employment/attendance at a Niagara County school.

**Testing on Mondays:**
