

Security and Law Enforcement

Grades 11 & 12

Students interact with many guest speakers from the criminal justice field and visit numerous agencies to learn about this career field. This program will orient the students to the careers associated with Security and Law Enforcement and introduce the students to the criminal justice system (Police, Courts and Corrections).

Objectives are:

1. To develop good work habits.
2. To orient the student with equipment used by security and law enforcement personnel.
3. To develop job skills necessary for employment.

Units of Study

During this two year course, students will not only receive instructional theory, but will also practice some methods of security and crime scene investigation. Field trips to local courts, central police services, various law enforcement agencies, and prisons will also be part of the program.

Students will get first-hand knowledge of the prison system with a question and answer session with inmates presently incarcerated in Attica and Wende Correctional Facilities. The Community Awareness Program (CAP) and the Youth Assistance Program (Y.A.P.) enable students as well as college, church and various civic groups to engage in the presentation, which effectively demonstrates an objective and accurate view of the facility, it's programs, the criminal justice system and problems that inmates face preparing for re-entry into the community.

Applied Academics

Students enrolled in the Security and Law Enforcement program can earn credits that will satisfy core academic requirements in English Language Arts, Math and Science. Through the integration of these core academics, achieving a Regents Diploma remains in reach.

College Agreements

In addition to gaining the skills needed to enter the workforce, this program provides an excellent foundation for students looking to enter a college program. Articulation agreements for college credit are in place with: Bryant and Stratton College (9 hours), Erie Community College (6 credits) and Niagara County Community College (6 credits).

How to Enroll

Orleans/Niagara BOCES partners with local school districts to provide exciting hands-on career and technical training during normal school day. To learn more, speak with your high school counselor or you can contact Orleans/Niagara BOCES Orleans Career and Technical Education Center Principal Dr. Michael Weyrauch at mweyrauch@onboces.org.
